The town lies on a wonderful panoramic position on the road between Revine and Conegliano. It once was an earldom with its own constitution. The town church, built in 1597, houses a valuable masterpiece painted by Cesare Vecellio. Tarzo has been a well-known holiday resort since very ancient times. In the centre and nearby, you can admire some beautiful 18th century country-houses built by Venetian families.

The area is ideal for a relaxing and healthy holiday among lawns, vineyards and chestnut groves. There are some panoramic roads such as those going to Nogarolo or to Conegliano.
